Growing Happiness...

From nurturing the soil to harvesting joy, we ensure healthier crops and thriving farms.
Let's grow together for a greener, happier future!

Mulching Paper

Melon Care

Tomato Care

Chilly Care

Brinjal Care

Types :

- Silver Black
- White Black
- Black Black
- Red Black
- Green Black

Specifications :

- Width: 2.5 Feet, 3 Feet, 1 Meters, 1.2 Metres & Till the 8 Feet
- Length: 400, 800 Metres And Customised

Key Benefits :

✓ **Faster & Healthier White Root Growth** – Blocks light, promoting deeper, stronger roots.
✓ **Prevents Moisture Loss** – Reduces evaporation, saving water and irrigation costs.
✓ **Protects from Harmful Sun Rays** – Blocks UV & IR radiation, preventing root damage.
✓ **Maintains Ideal Soil Temperature** – Prevents overheating in summer and cold stress in winter.
✓ **Prevents Soil Erosion & Weeds** – Blocks sunlight, reducing weed growth and soil loss.
✓ **Increases Crop Yield** – Enhances plant health, leading to 20-30% higher productivity.

Ocean Crop Cover

Crop Protection Cover

Plant Protection Cover

Banana Bunch Cover

Fruit Protection Pouch

Pomegranate Tree Cover

Types :

- Crop Protection Cover
- Fruit Protection Pouch
- Banana Bunch Cover
- Banana Plant Cover
- Papaya Tree Cover
- Nursery Plant Cover

Specifications :

- Width: 5.25 Feet, 10.5 Feet,
- Length: 400, 800 Metres And Customised

Key Benefits :

✓ **UV Treated & Prevents Sunburn** – Shields crops from excessive sunlight, reducing heat stress and sunburn damage.

✓ **Maintains Required Temperature** – Regulates soil temperature for optimal root and plant growth in all seasons.

✓ **Insect Repellent / Prevents Insects** – Acts as a barrier against pests, reducing the need for chemical pesticides.

✓ **Protects from Harmful Radiations** – Blocks UV and IR rays, preventing plant damage and ensuring healthy growth.

✓ **Helps Plants Breathe** – Allows proper air circulation, preventing fungal growth and ensuring better respiration.

✓ **Provides a Better Greenhouse Effect** – Traps warmth to create an ideal microclimate, boosting plant development.

✓ **Increases Crop Yield** – Enhances plant health, leading to higher productivity and better-quality crops.

✓ **Tear-Resistant & Durable** – Designed for long-lasting performance, even in harsh weather conditions.

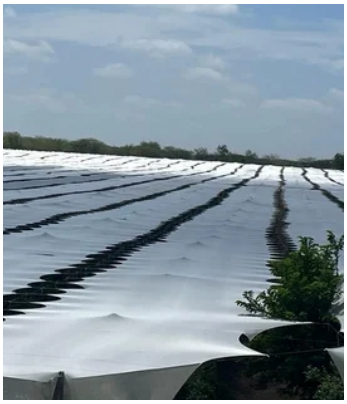

- **Result:** Stronger plants, healthier growth, and higher yields for maximum farming efficiency!

Planting Health... Growing Happiness...

Ocean Netlon Cover

Applications:

• Tomato, Green Chili, Red Chili, Capsicum, muskmelon, watermelon, pomegranate, orange, dragon fruit, net house crops etc.

Specifications :

• Width: 6, 8, 10.5, 11, 13 & 15 Feet, 10.5 Feet,
• Length: 200 Metres
• Thickness: 65, 75 & 85 GSM.

Key Benefits :

✓ **Protects from Birds & Insects** – Acts as a shield, preventing damage from pests and birds.
✓ **UV Stabilized** – Long-lasting durability under harsh sunlight, ensuring extended field life.
✓ **Made from High-Grade Polymer** – Strong, lightweight, and weather-resistant for superior performance.
✓ **Shields from Heavy Rainfall & Wind** – Prevents crop damage caused by excessive rain and strong winds.
✓ **Maintains Proper Temperature** – Creates an ideal microclimate, improving plant growth conditions.
✓ **Ensures Better Airflow** – Enhances ventilation, reducing humidity and preventing fungal infections.
✓ **Increases Crop Yield** – Supports healthier plants, leading to higher productivity and better-quality crops.
✓ **Tear-Resistant & Durable** – Withstands extreme weather conditions for long-term agricultural use.

Result: Stronger crops, higher yields, and maximum farming efficiency!

Low Tunnel Product

Stick

Specifications :
- Length :- 6 Feet, 8 Feet and 10 Feet
- Thickness: 5 mm.

Key Benefits :

✓ **Long-Lasting & Durable** – Made from high-quality fiber material.
✓ **Rust-Free & Lightweight** – No corrosion, easy to handle.
✓ **Highly Flexible** – Better than metal or wooden rods.
✓ **Strong Yet Thin** – High strength with a slim design.
✓ **Easy to Install & Store** – Convenient for use and transportation.

Clip

Specifications :
- Length :- 2 Inch
- Thickness: 2 mm.

Key Benefits :

✓ **Low Cost Yet Strong** – Budget-friendly without compromising durability.
✓ **Fits Perfectly to Agri Wire** – Designed for a secure and stable fit.
✓ **Lightweight & Easy to Store** – Simple to handle, transport, and store.
✓ **Higher Strength** – Provides excellent support for agricultural applications.

Low Tunnel Thread

Specifications :
- Length :- 1000m
- Thickness:- 20 d

Key Benefits :

✓ **Thin Yet Stronger Than Other Threads** – High tensile strength for durability.
✓ **Longer Life** – Designed for extended use in farming applications.
✓ **Provides Long-Lasting Support to Agri Wire** – Ensures stability and durability.
✓ **UV Stabilized** – Resistant to sun damage for enhanced longevity.
✓ **Lightweight** – Easy to handle, install, and store.

Tomato Thread:

Specifications :
- In 1 Kg
- Length : 2000 metres
- Thickness: 4000 D
- Cut Piece: 1000 Numbers

Applications: Tomato, Green Chili, Red Chili, Capsicum,

Key Benefits :
- ✓ **Facilitates Easy Climbing** – Helps plants grow upright, preventing ground contact and reducing disease risk.
- ✓ **100% Replacement for Jute Sutli** – More durable, long-lasting, and weather-resistant than traditional jute.
- ✓ **Provides a Strong & Long-Lasting Structure** – Ideal for crop covers and support nets.
- ✓ **Resistant to Fertilizers, Fungicides & Pesticides** – Ensures durability without chemical damage.
- ✓ **High Strength with Strong Netting Structure** – Supports heavy plant loads effectively.
- ✓ **Weather-Resistant** – Withstands rain, heat, and harsh environmental conditions.

Agri Wire:

Specifications :
- 3,6 and 9 twisted
- Length : 900, 1450 metres and customised
- Thickness: 1.5, 2.5 mm and customise

Applications: Tomato, Green Chili, Red Chili, Capsicum, Grapes

Key Benefits :
- ✓ **Similar Size as GI Steel Wire –** Perfect alternative with the same strength and dimensions.
- ✓ **Suitable for Various Applications –** Ideal for trellising, fencing, and crop support.
- ✓ **Resistant to Fertilizers, Fungicides & Pesticides –** Ensures longevity without chemical damage.
- ✓ **Weather-Resistant –** Withstands extreme conditions like rain, heat, and humidity.
- ✓ **Durable & Long-Lasting –** Designed for extended agricultural use.
- ✓ **Anti-Corrosion –** Outlasts traditional metal wires without rusting.
- ✓ **Uniform Thickness –** Consistent strength and performance for better crop support.

Crop Support Net

Specifications :
- Length : 1250 feet
- Thickness: 6 feet thickness 0.46 mm and customise

Applications: Biter Guard, Ridge Guard, Cucumber, Sponge Guard etc.

Key Benefits :
- ✓ **UV Stabilized** – Protects against sun damage for extended durability.
- ✓ **Made from High-Grade Material** – Ensures superior strength and longevity.
- ✓ **Easy to Install & Apply** – Lightweight and hassle-free setup.
- ✓ **Long-Lasting** – Designed for multiple seasons of use.
- ✓ **Provides Better Support for Crawlers & Climbing Crops** – Helps plants grow upright, preventing ground contact.
- ✓ **Increases Crop Yield** – Enhances plant health, leading to higher productivity.

Planting Health... Growing Happiness...

Weed Mat

Specifications :

- **Color Options:** Black, White, and Green
- **UV Stabilized:** Designed to withstand harsh sunlight
- **Customizable Sizes:**
- **GSM Options:** 95-120
- **Lengths:** 100-500 mm
- **Widths:** 2 ft to 14 ft

Applications:

✔ **Agricultural Fields, Nurseries, and Gardens –** Effectively controls weed growth while maintaining soil health and moisture

✔ **Orchards, Vineyards, and Greenhouses –** Enhances crop yield and reduces maintenance costs

Key Benefits :

- ✓ **Weed-Free Growth:** Prevents weed growth, reducing herbicide use and labor costs
- ✓ **Enhanced Water Permeability:** Allows groundwater recharge and prevents soil erosion
- ✓ **Healthy Crops:** Eliminates competition, ensuring optimal growth and higher yields
- ✓ **Durable and Strong:** High-strength material resists wear for long-lasting performance
- ✓ **Breathable Design:** Supports air and water flow for better plant health and root development
- ✓ **Prevents Water Logging:** Maintains ideal soil conditions for healthy crop growth

Spray Pump:

Specifications :

• **Double Battery Spray Pump:**
Tank Capacity: 20 liters
Motor: Double motor, delivering up to 200 PSI
Battery: 12V 12AH for extended operation
Weight: 3 kg, with adjustable belt & back support
Includes: Regular trigger, straight lance, and high-pressure gun

•**Two-in-One Spray Pump:**
Tank Capacity: 16 liters
Motor: 4.5 LPM, 110 PSI
Battery Options:
Model 1: 12V 8AH battery
Model 2: 12V 12AH battery for extended use
Weight: 2.1 kg, with adjustable belt
Includes: Regular trigger, straight lance, and charger

Applications:

✔ **Agricultural & Horticultural Use: Ideal for farms, gardens, nurseries, and orchards for spraying pesticides, herbicides, and fertilizers**
✔ **Heavy-Duty Tasks: The Double Battery model is perfect for large-scale farming and demanding spraying jobs**

Key Benefits :

✓ **High Performance:** Double Battery model delivers up to 200 PSI, ensuring efficient spraying
✓ **Extended Battery Life:** Both models offer long-lasting usage, with a 12V 12AH battery option
✓ **Lightweight & Comfortable:** Easy to handle, with an adjustable belt and back support
✓ **Durable & Aesthetic:** Glossy finish for enhanced durability and appeal
✓ **Versatile & Portable:** Two-in-One model is lightweight and easy to carry, making it suitable for various spraying needs
